

# A VIRTUAL DISCUSSION on Implicit Biases and Diversity, Equity and Inclusion (DEI): A Research Update

- Do tools used to measure implicit biases (e.g., the Implicit Associations Test, IAT), work?
- Do DEI trainings based on the IAT lead to improved outcomes for diversity or relations between individuals with differing backgrounds?
- If you have a “bad” score on the IAT does it mean you have biases related to race/gender/etc?
- What types of DEI trainings work best?

## Details

- Led by: Dr. Christopher J. Ferguson
- When: Weds, April 27, 4-5pm
- Where: Online
- Zoom Meeting ID Code: 277 504 4724
- Open to: Students, Staff, Faculty, Community
- **Cultural Credit!**
